

# YOU ARE INVITED!

Dear Parents:

In response to the interest of many of our students in travel abroad, I have arranged a special informational meeting for students and parents. The opportunity to go abroad is a valuable experience for students. It brings growth in self-reliance and cultural understanding which helps to prepare them for the future, as well as educational benefits that last a lifetime!

At our meeting we will discuss the type of program, dates, cost and answer any questions you may have.
